

## Editor's Recognition Awards and acknowledgements

Mustafa Seçil   
Editor in Chief

The year 2020 brought extraordinary experiences to all of us, nearly in every aspect of life, including scientific communication and publishing. COVID-19 was novel as a subject of investigation with too many unknown features and radiology played a pivotal role in the diagnosis of this disease. New findings and observations encountered during this unprecedented fight against the disease instantly and successfully converted into scientific research. Since developing a hypothesis did not require high-end or ultra-new technology, many radiologists could involve in this global research wind. In addition, the new concept of flexible or remote working life probably allowed some authors to find more time to spend on their shelved manuscripts. These factors resulted in an explosion of manuscript submissions to all journals including *Diagnostic and Interventional Radiology* (Needless to say, COVID-19 had a negative impact on productivity of many. My deepest condolences to those of you who had to cope with grief and loss in 2020. I also would like to acknowledge that remote working life increased responsibility of many at home).

I will save information on the evaluation process of the changes in parameters of manuscripts and per year comparisons for a post-pandemic day. However, to celebrate all the contributors, I would like to proudly share 2020 review data of *Diagnostic and Interventional Radiology*:

2020 Turnaround	Average Days
Days from submission to first decision	14.2
Reviewer turnaround time - Original	10.2
Reviewer turnaround time - Revision	6.5
Days from submission to final decision	22.0

The acceptance ratio was 18.8% for 2020.

*Diagnostic and Interventional Radiology* annually publishes an acknowledgement letter to thank all the reviewers of the previous year. Among the reviewers, some are distinguished with their performances and recognized as "Special Distinction in Reviewing" or "Distinction in Reviewing". "Editor's Recognition Awards" category includes the reviewers who consistently provide top-level service to *Diagnostic and Interventional Radiology*. I greatly appreciate their service and dedication to *Diagnostic and Interventional Radiology*. Many thanks to all of our reviewers, authors and section editors for their priceless contribution to our journal.

### Editor's Recognition Awards

İlkay İdilman

### Reviewer acknowledgements

Special Distinction in reviewing – 2020*		
Name	Completed reviews (n)	Average time (days)
Bahri Üstünsöz	15	11
Naciye Sinem Gezer	12	6
Serkan Güneyle	11	2
